

business software for the architectural openings distributor

contractERP®

BENEFITS:

- **Streamlines your entire business.** contractERP provides complete functionality for accounting, inventory control, distribution, human resources, and much more, all within a single, unified business management application.
- **Understands YOUR business.** Access IT has applied its fifteen years of experience in the industry to tailor contractERP to meet the specific needs of the openings distributor. No other solution understands these needs more than contractERP.
- **Eliminates costly re-keying of data.** Replace costly and error prone re-keying of data with a seamless import of data from your front-end estimating and detailing application directly into contractERP.
- **Improves Cash Flow Position** Time purchases more accurately to the customer's actual ship date and vendor lead and handling times, or by using the systems automated consolidated purchase environment, creating a better opportunity to negotiate volume purchases and consolidate freight.
- **Reduces Labor Costs** Leverage seasoned resources more efficiently with tasks that produce revenue opportunities. The day to day management of projects can be delegated to less industry experienced staff that can manage a contract with a high degree of success, thanks to the contractERP's ease of use and flexible processing flow.

Powered by Microsoft Dynamics™ - NAV, a world class accounting system, contractERP provides the highly specialized functionality needed to support the nuances of the architectural openings industry. From the first issued bid proposal, through to the final change order and contract payment, contractERP manages it all with a business processing flow that follows your business model exactly.

The screenshot shows the contractERP software interface within Microsoft Dynamics NAV. The main window is titled "Material List" and displays a table of items. The table has columns for Description, Components, Purchasing Code, Req. Question Not Answered, Quantity, and Qty. to Release. The items listed are:

Description	Components	Purchasing Code	Req. Question Not Answered	Quantity	Qty. to Release
4011 REG LH ALUM CLOSER	✓				1
4111 X PARALLEL ARM MOUNT	✓				1
4111 X PARALLEL ARM MOUNT	✓				7
4111 X PARALLEL ARM MOUNT	✓				4
4111- S- CUSH X TB - ALUM	✓	SPECIAL			6
4111- S- CUSH X TB - ALUM	✓	SPECIAL			11
COR52 X FL20 X 3-MB1F - US28	✓				2
1E74 x C265 X RP3 - US26D	✓	SPECIAL			17

In one screen, you can gain visibility into the status of one or all of your jobs. contractERP provides one click access to every aspect of your contract fulfillment process.

Unlike the traditional wholesale distributor who purchases the majority of their inventory to maintain stock levels to sell from, architectural openings distributors are purchasing or shop building special ordered material to satisfy a sales contract.

Most business software systems don't understand the unique needs of the openings distributor and running your business with them is like trying to fit a "square peg into a round hole."

The software that runs your business needs to fit the way YOU conduct your business. contractERP™ is the solution.
